Learner Responsibilities

PREVENT is the Government's strategy to stop people from being drawn into terrorism. You can help **PREVENT** this.

RADICALISATION

Is the word commonly used to describe the mental process the person is going through as they get drawn down a dangerous path. If someone is becoming radicalised it means they are displaying extreme views in support of extreme ideologies or beliefs, terrorist groups and activities.

EXTREMISM

Sometimes when people have very strong views they become extreme. This means the views they are expressing go beyond what the majority of people think are OK to hold. When someone is becoming more extreme in their views, they become increasingly intolerant of other people's opinions when they oppose or challenge their own. This can be very challenging for the friends and family who care about them and are worried about the path they are going down.

TERRORISM

Is the use of threat of violence or damage to advance a political, religious, racial or ideological cause.
